

# Using Flush Mount with SPIRIT Series

- 1** Use the correct fastening method (Concrete dowels for concrete, drywall Anchors for drywall etc.) to attach the wall bracket. Make sure it is mounted straight as shown in the picture.
- 2** Mount the speaker bracket to the speaker, make sure the orientation is the same as in the picture. Before step 3, connect the speaker cables.
- 3** Fasten the speaker bracket to the wall bracket and use a screwdriver to lock the screws in place.
- 4** You are now done with your installation. Happy Listening!
